HANGAR 2 PARTNERS INTRODUCE SUMMER FARMERS MARKET IN LOWRY

Weekly Saturday Event Kicks Off June 11

DENVER- Hangar 2 Partners, owners of the Hangar 2 property in Lowry, announced today the schedule of the new weekly Hangar 2 Farmers Market (H2FM). Hangar 2 will host the market starting Saturday, June 11 and continue every Saturday through September 17. The H2FM will offer Colorado produce, locally made cheeses and breads, artisanal gifts and other micro sourced items.

“We are thrilled to provide a consistent neighborhood community event at Hangar 2 throughout the summer,” said Pat McHenry, director of leasing and acquisitions at Larimer Associates. “The farmers market is the perfect activation for the space as we continue to lease and develop the property.”

A total of 15 Saturday market dates are planned this summer. Different weekends will be programmed with various activities and events, including the occasional appearances from the always-popular food trucks. H2FM will also work with local non-profits to provide free booth space to help increase awareness of available programs.

“By transforming the Hangar 2 lot into a bright, colorful array of local produce and artisanal crafts each Saturday, we are simply enhancing the active and healthy lifestyle already embraced by the residents of Lowry and the surrounding neighborhoods,” said Joe Vostrejs, CEO of Larimer Associates. “As a homeowner at Lowry, I’m already looking forward to Saturdays this summer.”

Booth fees for market vendors range from \$20 to \$250 plus a percentage of sales. Interested parties should contact Eventful Productions at 303-840-0045 or beth@eventfulpro.com.

Hangar 2 Partners acquired the historic Hangar 2 landmark last August and implemented its development plan shortly thereafter. Earlier this spring, the group partnered with Extra Space Storage to open a state of the art self-storage facility within the hangar’s interior. Additionally, Hangar 2 Partners have renovated the hangar’s attached buildings into boutique retails and office spaces. The spaces already include tenants Qi Yoga Lowry and Martifer Solar. Spaces are still available for lease. The second phase of the development is a series of distinct 12 purpose-built restaurant spaces, aptly named the Lowry Dining District.

Hangar 2 is located at in the heart of the Lowry neighborhood at Rampart Way and Academy Blvd, directly west of Wings Over the Rockies Air & Space Museum. Parking for the H2FM will be available in the west lot of Hangar 2 and on surrounding streets.
